

CARES Worker Web Major Changes for 7/29/2005 Release

SMRF Driver page scheduling enhancements (PCR 23676)

Review driver scheduling enhancements (PCR 23675)

In order to save worker time, there have been several changes made to the pages scheduled in the SMRF driver and the Review driver (demographics pages only). In some cases, summary pages will now be scheduled instead of detailed pages. The intent of scheduling summary pages is to allow the user to review the current information to assess whether any changes are necessary without having to go through the time consuming process of viewing each detailed record one by one. The pages that will now be scheduled have been chosen to carefully balance the goals of workload savings and payment accuracy.

Additional Data – Change field name to Assigned Worker ID (PCR 23839)

In the Additional Data page, the term 'Worker ID' is currently used. To clarify that this refers to the worker that the case will be assigned to, the term 'Assigned Worker ID' will now be used. 'Worker Name' will also be changed to 'Assigned Worker Name'.

Life Insurance Assets – Verification layout enhancement (PCR 22118)

'Cash Surrender Value' has been moved to the next line and 'Verification' is placed next to it. The 'Verification' will be required only when the 'Cash Surrender Value' is entered. If the 'Verification' is entered, then 'Cash Surrender Value' is required.
